

Welcome to TextMark

****Cross-platform Markdown, beautifully rendered.****

TextMark is a fast, lightweight Markdown editor and reader for Windows, Linux, and macOS. It combines a focused editing experience with a live preview.

| > Write in Markdown. See it live. Ship with confidence.

Features

- Live preview
- Syntax highlighting
- Mermaid diagrams
- Math with KaTeX: $E = mc^2$
- Safe local image loading

Quick start

1. Open a Markdown file
2. Edit on the left
3. See changes live on the right

Sample table

Platform	Support	Package
---	---	---
Windows	Yes	MSI / NSIS
Linux	Yes	AppImage / DEB / RPM
macOS	Yes	Universal app / DMG

Diagram

```
```mermaid
